

YDRIAN MARCIL D. YAYEN

JUNIOR DEVELOPER

Puerto Princesa City, Palawan, Philippines | +63 946 147 8420 | yayenydrian@gmail.com | <https://ydzz18.github.io/PortfolioniYd/>

EDUCATION

Bachelor of Science in Computer Science
Fullbright College Inc.

2023 - Present
KM 5 National Highway, San Jose, Puerto Princesa, Philippines, 5300

PROJECTS

E-Commerce Website

Full-stack Developer

September 2025 – December 2025

https://github.com/Ydzz18/mall_website

- Architected and developed a full-featured PHP 7.4+ e-commerce platform (JRD Malls) with a MySQL database, implementing role-based access control, a complete shopping cart/checkout system, multi-payment integration, an admin dashboard with 16+ management modules, real-time order processing, activity logging, email notifications, and comprehensive security features including bcrypt authentication, prepared statements, and audit trails.

Professional Photography Community Platform

Full-stack Developer

November 2024 - December 2024

<https://github.com/Ydzz18/photo-web>

- Designed and built LensCraft, a full-stack PHP (8.2)/MySQL photography community platform featuring secure auth (email verification, bcrypt, optional 2FA), photo upload + client-side editor, social features (likes, comments, follows), admin dashboard & moderation, real-time notifications, PHPMailer/Gmail SMTP integration, responsive UI, and performance/security optimizations (prepared statements, caching, image compression, RBAC).

Muay-Thai Vision Model

Lead Developer

April 2026 - June 2026

<https://github.com/Ydzz18/Muay-Thai-Vision-Model>

- Developed a computer vision system for analyzing Muay Thai techniques, including dataset curation, model training and evaluation, and packaging the model for public use on GitHub.

SEMINARS & TRAININGS
